

- ***Are you a brain injury (other than stroke) survivor who has worked (for any length of time) since your injury?***
- ***Have you done volunteer work since your injury?***
- ***Are you the family member of a survivor who has worked or volunteered since injury?***

If you answered “YES” to any of these questions, I would like to talk with you!!!

I am a researcher at UNL. I am performing research about the challenges (and successes!) of people who work or have tried to work following brain injury. Much of this study will involve talking to family members of people with brain injury.

If you have questions about this research or are willing to talk with me about your work/volunteer experiences or the work/volunteer experiences of a loved who has sustained a brain injury, PLEASE contact me.
